

Announcing the Availability of Four Updated PCB Information Briefs

Four Information Briefs previously issued by EH-413 on the Management of Polychlorinated Biphenyls (PCBs) under the Toxic Substance Control Act have been updated to reflect the latest changes in the PCB MEGA Rule. The topics of the PCB Information Briefs are:

- *PCB Recordkeeping and Reporting,*
- *PCB Manifesting and Notification Rule,*
- *PCB Storage Requirements,* and
- *The PCB Mark*

EH-413 has incorporated information that EPA HQ published from technical questions and from the EPA HQ Question and Answer Guidance Document. Please use the links above to access the PDF files of these Information Briefs.

Visit the EH-41 World Wide Web site at <http://eh.doe.gov/oepa/> for information on emerging and newly promulgated environmental regulations and related environmental guidance publications and compliance tools.
